Our approach

We provide training and development workshops to councillors because we believe this investment in the skills and knowledge of your elected members improves the overall effectiveness of your council and therefore, the outcomes for your communities.

Our mission is to bring a fresh and exciting approach to training in the local government space by building the capability of your elected body.

With this in mind, our approach is:

- / **strength based** – so that councillors learn what to do, not just not what to avoid.
- / **collaborative and interactive** – so that councillors and staff can learn together and from each other as well as us.
- / **tailored** – so that councillors can learn from content which is relevant to their communities needs and the situations they encounter.
- / **practical** – so that councillors can learn from real life examples and not just the theory.

Our facilitators

Our facilitators are regional local government experts who have a unique combination of skills and training with qualifications in law, mediation, governance, planning and community engagement.

This means your councillors will gain insights from highly qualified experts who understand the regional context of local government.
